Projects

Chat App | 2024

Technologies: React Native, Firebase, expo-av

- Built a real-time messaging application for iOS and Android with features like image sharing, location sharing, and audio messages.
- Integrated Firebase for backend services and expo-av for audio playback functionalities.
- Designed an intuitive user interface to enhance user experience.

Recipe App | 2024

Technologies: Django, HTML, CSS, JavaScript, PostgreSQL

- Created a web-based platform for users to create, manage, and view recipes.
- Implemented features for automatically calculating recipe difficulty and adding pictures.
- Integrated charting functionalities to visualize recipe data.

Movie App | 2023

Technologies: React, MongoDB, Express, Node.js

- Developed a full-stack application that allows users to view, search, and favorite movies.
- Implemented user login, signup, and profile management functionalities.
- Integrated a third-party API for fetching movie data and displayed it in a user-friendly format.

Technical Skills

- Front-End: HTML, CSS, JavaScript, React, Angular, Tailwind, ReactNative
- Back-End: Node.js, Express, Django, Python
- Databases: MongoDB, AWS
- Tools & Platforms: Git, GitHub, VS Code, Webpack, REST, Bootstrap
- Other: Responsive Design, RESTful APIs, Agile Methodology

Innovative Web Developer merging customer service excellence with Front-End and Back-End skills. Passionate about user-centric development, integrating innovative concepts, tools, and technologies. Excelled in agile problem-solving and full development lifecycle, crafting engaging, accessible applications shaping the future of web and mobile technologies.
